

PharmaMedic Consultancy – Virtual Medical Affairs Solutions

PMC[®] provides a comprehensive outsourced virtual medical and regulatory affairs service for start-ups, mid to late-stage biopharma, as well as consumer health organisations, medical device companies, and academic centres.

Benefits of Outsourcing your Medical and Regulatory Affairs functions:

- ✓ Improve cost-efficiencies
- ✓ Enhance the capabilities of your internal team with experts from day one
- ✓ Retain strategic focus while efficiently managing the day to day operational activities
- ✓ Scale your team investment as your organisation and team grows- quickly and seamlessly

Our Solutions

PMC[®] delivers virtual medical and regulatory affairs solutions through a team of experienced pharmaceutical consultants. We provide a range of flexible services supporting start-ups, product launches, and large pharma teams. Our services incorporate:

Support for Start-Ups:

- Product review and investment analysis
- Company and Medical Affairs function set up
- Regulatory strategy
- Protocol development and clinical study programme implementation

Support for Product Launches:

- Launch planning
- Marketing and sales material support
- Final signatory sign off and certification set up and implementation
- KOL development
- Market access representation and materials development

Support for Post-approval:

- Advanced regulatory strategy
- Pharmacovigilance services
- On-going development of marketing and sales materials
- Training material development
- Final signatory support

Our Solutions are built on Four Key Elements

Flexibility – scale your medical affairs solutions as your needs evolve

Expert Oversight – benefit from the decades of experience of our team

Collective Expertise – access the broad knowledge of our network of consultants

Knowledge Retention – seamless scale up and Consultant substitution in line with IR35 requirements

Our credentials

PMC® is an independent General Affiliate Member of the Association of the British Pharmaceutical Industry ([ABPI](#)) and an Associate Member of the v([CCRA](#)).

Dr. Malcolm Barratt-Johnson

PMC® was founded by Dr Malcolm Barratt-Johnson, a pharmaceutical physician with over 20 years' experience consulting with industry and the UK Government. Malcolm advises bioscience and pharmaceutical companies on Product Development, Regulatory Strategy and Medical Affairs, focusing on Start-Ups and SMEs. He has acted as a Clinical Specialist and Chair to the European Commission's Biomedical Research Programme (Horizon 2020), lectures in both Europe and the United States on medicinal development, teaching on the Pharmaceutical Medicine MSc Course of King's College, London and serves as a Non-Executive Director (NED) to a prominent UK Biotechnology firm. Malcolm leads a team of over 20 PharmaMedic consultants across Europe with expertise across Medical Affairs and Regulatory Strategy.

What our clients say

«The partnership we have with PMC® and our consultant works exceptionally well. Our PMC® consultant is highly experienced, and it's invaluable to be able to draw on their wealth of knowledge and expertise. While there isn't currently a sufficient volume of work to justify a full-time employee at the PMC® consultant's level, we benefit from having someone of their exceptional calibre available to us.»

Olivia Marsh, Glenmark Pharmaceuticals
