

PharmaMedic Consultancy – Medical Affairs Solutions

PMC[®] provides comprehensive outsourced medical and regulatory affairs solutions for the pharmaceutical industry. PMC[®] has a unique structure harnessing a 'Collective' of over 100 Experts tailored to provide solutions to your needs.

Benefits of Outsourcing your Medical and Regulatory Affairs Functions

- ✓ Maintain and enhance the capabilities of your Team with Experts
- ✓ Manage your day to day operational activities whilst retaining strategic focus
- ✓ Scale your Team as your organisation grows quickly and seamlessly
- ✓ Retainer schemes available with a set cost

Our Solutions

PMC[®] delivers medical and regulatory affairs solutions through a collective of experienced pharmaceutical associates. Our services incorporate fully scalable services which support:

Start-Ups

- ✓ Business case development and venture capital presentation
- ✓ Medical affairs function development
- ✓ Regulatory and licensing approval process and strategy
- ✓ Protocol development and clinical study programme presentation

Generic Manufacturers

- ✓ Comprehensive brand product and life cycle development
- ✓ Regulatory support for branded name change and packaging
- ✓ Working with you to develop eye catching and comprehensive marketing materials
- ✓ Medical review with an integrated compliance platform
- ✓ Competitive pricing and availability of service package

Large Pharma

- ✓ Short/medium term medical affairs and regulatory support outside of IR35
- ✓ Launch planning including HTA assessment
- ✓ Marketing and sales material support
- ✓ Final signatory and certification sign off and system set up and implementation
- ✓ KOL and Patient Organisation development

Our solutions are built on four key elements

Scalability – scale your medical affairs solutions as your needs evolve within IR35

Expert Oversight – benefit from the decades of experience of our Team

Collective Expertise – access to a project base Team solution

Agility and cost effectiveness

Our credentials

Dr Malcolm Barratt-Johnson
Managing Director

Malcolm is Managing Director of PharmaMedic Consultancy and Immediate Past President of the Section of Pharmaceutical Medicine and Research of The Royal Society of Medicine, London, UK. With over 20 years experience as a Pharmaceutical Physician to industry and Government, Malcolm advises bioscience and pharmaceutical companies on product development, regulatory strategy and medical affairs, focusing on start-ups and SMEs. He acts as Non-Executive Director to a number of companies in the pharma sector and lectures on the Medical Affairs and Medicinal Development MSc Courses of King's College London.

PMC® are

Pharmaceutical
Industry (ABPI)

What our clients say

“ PharmaMedic offer a very comprehensive service with work that is of an excellent quality at all times. ”
Dr Kriszta Zolnay,
Gedeon Richter

“ Malcolm and his team consistently deliver immediate, professional support with a high level of expertise, infused with enthusiasm and care, resulting in consistently outstanding, high-quality work. ”
Tony Patrikios, Amgen

“ The partnership we have with PMC® and our consultant works exceptionally well. Our PMC® consultant is highly experienced, and it's invaluable to be able to draw on their wealth of knowledge and expertise. While there isn't currently a sufficient volume of work to justify a full-time employee at the PMC® consultant's level, we benefit from having someone of their exceptional calibre available to us. ”
Olivia Marsh, Glenmark Pharmaceuticals

Companies we have worked with

“ Malcolm provided support to Santen UK from its early start-up phase through to the current successful dedicated speciality company we are today. His medical affairs expertise and knowledge of UK regulations were invaluable during this critical start-up phase. We wouldn't hesitate in working with Malcolm and his team at PharmaMedic again. ”
Craig Wallace, MD at Santen
